India Rubber Goods.
SPRING TRADE, 1854.

D. HODGMAN, 27 *Maiden Lane* and 59 *Nassau Street*, invites the attention of his former customers and merchants generally, particularly Wholesale Buyers, to his immense stock of India Rubber Goods,—which he has now on hand and is daily receiving from his Factories, including

COATS,	LIFE PRESERVERS,
CAPES,	WHIPS
GLOVES,	CARRIAGE-CLOTH,
PANTS,	PIANO COVERS,
OVERALLS,	MACHINE BELTING,
LEGGINGS,	ENGINE PACKING,
CAPS,	GROTON HOSE,
REEFING JACKETS,	

And every description of Rubber Goods manufactured.
The reputation of my Goods for their excellent quality is so well established as to render any further commendation entirely superfluous. It affords me great pleasure to inform Wholesale buyers of

Rubber Clothing,
That I am enabled to offer them inducements to purchase superior to what I have heretofore, and as I firmly believe superior to any that have been, or can be, offered them elsewhere.
Orders respectfully solicited and attended to with promptness and despatch by
D. HODGMAN,
27 *Maiden Lane & 59 Nassau Street, New York.*

Choice Fruit Trees.

FOR SALE at my *NURSERY*, on Centre Street, a choice lot of FRUIT TREES, most of the stock consisting of *Apple Trees*, grown in this climate, and of best varieties of Apples which have proved adapted to this climate.
Also, a quantity of HORSE CHESNUT and WEEPING WILLOW Trees.
As the Centre Street Nursery must be cleared the present spring, for the purpose of appropriating the land to other uses, a fine opportunity is offered, particularly to those who wish a quantity of small trees, as well as standards, and in order to clear the land the Trees will be sold in quantities at low prices, if early application be made.
☞ Those wishing for single trees can be accommodated with a number, any variety from this or the nursery of Mr. Harlow, Esq., in the immediate vicinity. SAMUEL HARLOW.

Admirable Invention!
PATENT SELF HEATING
SMOOTHING IRON!

MANY important improvements have been made since the beginning of the present century, relieving and facilitating the labor of men by machinery and other modern implements; but females have been nearly neglected until the introduction of the *Patent Self Heating Smoothing Iron*, which will relieve them, in a very great degree, from the excessive and fatiguing labor of Ironing, besides being a great saving of time and expense. This Iron combines economy, convenience, saving of labor, and despatch; one cent's worth of dry charcoal supplies it for a whole day's constant using. Hard wood coal from the stove will answer the same purpose. It can be used in any room or in the open air. Hatters' and Tailors' Irons are constructed upon the same principle, and possess equal superiority.

Dr. Langley's Root and Herb BITTERS.
A COMPOUND of Sarsaparilla, Yellow Dock, Prickly Ash, Dandelion, Thoroughwort, Wild Cherry, Mandrake, and Rhubarb. Just the Medicine for *Ladies*; sure to do them good.
SPRING HAS COME.
Read, consider, reflect! and know that after being shut up or confined in factories or workshops all winter the Liver becomes inactive and unhealthy, thus filling the blood with vitiated humors, producing Jaundice, Weakness, Loss of Appetite, Dyspepsia, Headache, Costiveness, Indigestion, Foul Stomach, Piles, Langour, and General Debility. Now then, if you wish to remove all these, together with humors in the Blood and Skin, take Dr. Langley's Root and Herb Bitters—at least one or two bottles. They always do good and never hurt. Let each and every man, woman and child have a bottle at only 25 cents for a pint, 37½ cents for a quart bottle.

Now Nature, herself, a sure remedy brings,
Which cleanses the current of life at its springs,
From fearful Diseases that bear to the grave,
Langley's Root and Herb Bitters infallibly save.
There's scarcely a dangerous disease we can name,
In which the Root and Herb Bitters have not achieved fame.
And so safe is their action, they cannot do harm,
While they strengthen the system and act like a charm.
Are you Temperance folks—when this medicine is used
No drink alcoholic is by it infused,
Nor need the fond mother feel anxious alarm,
To the tenderest infant it cannot do harm.
Is your Liver disordered? is Jaundice your foe
Then Langley will deal both the monsters a blow;
Do you suffer from *Headache*—'twill give you relief,
For *Piles* 'tis of all cures acknowledged the chief,
The motto of "Buy me and I'll do you good,"
The test of experience has safely stood—
And many unto it this truth will append,
That the *Root and Herb Bitters* is every one's Friend.
Is your Appetite gone, then the Root Bitters take.
And you'll heartily relish your chop or your steak;
The Blood it will purify—redden your cheek,
And strengthen your frame should it ever grow weak.
The Ladies declare no such Remedy's known,
And the sale is immense to the Fair Sex alone;
No wonder, the Bitters make Langour to fly;
Brings new bloom to the lip, new fire to the eye!

Sold in Bangor, wholesale and retail, by Ingraham & Fuller, Guild & Harlow, and by all Druggists and dealers in Medicine in Bangor. Orono, Oldtown, Stillwater, Hampden, Frankfort, and Bucksport, at 25 cents a pint and 37½ cents for a quart bottle.

DR. ORDWAY'S
HUMOR DISCOVERY,
—AND—
BLOOD PURIFIER.

DR. ORDWAY has been using his Blood Purifier in his practice for the last seven years, with great success. He has often been urged by his friends, and those who have tried it and know its efficacy, to put it within the reach of all.
He has now added to it an *Herb discovered in California*, by Dr. Kelley, which makes it the most wonderful remedy for
HUMORS OF ALL KINDS,
LIVER COMPLAINTS, CHRONIC DISEASES, &c.
The virtues of this Herb were first made known to Dr. Kelley by an Indian, while attending a patient sick with that terrible disease, the California Erysipelas and Liver Complaint.
The effect was marvelous, curing the patient in a few days.
The natives, when bitten by a rattlesnake, or rabid animal, resort to this Herb for a cure.
Hundreds are taking this medicine, after trying in vain other remedies, and say the half was never told them.
Discovery of the California Herb.
About the first of March, in the year 1849, Dr. Kelley sailed from Boston in the ship "Sweden" for California, and arrived at San Francisco in July following. He spent considerable time in that climate, the country and mining, but the greater portion of which was spent in the practice of his profession.
While he was practicing in the vicinity of Auburn, between the north and south forks of the American river, he frequently noticed the Indians gathering an Herb, which they held in high estimation in curing diseases, bites of rattlesnakes, and rabid animals.
While doctoring a miner for that terrible disease, the California Erysipelas and Liver Complaint, an Indian (whose life he had previously saved) called upon him with some and ... with him the Herb, which he called "Chu-tar-hene" (which means swell cure,) he told him to "give the *hombre*," (the man). The effect was found to be new and wonderful, curing the man in a few days.
He afterwards used the Herb in his practice, and found it to possess new and remarkable properties for all kinds of Humors, Liver Complaints, Dyspepsia, Rheumatism, Sores, Running Ulcers, Mercurial Diseases, Sick Headache, Kidney Complaints, and a great *Purifier and Purifier of the Blood.*
The doctors in consulting the discovery and medicinal properties of this rare Herb, as related by Dr. Kelley, on his return.
Upon trial, its virtues have been found to far exceed its reputation as the most valuable Medical Herb yet discovered.

Hear a Mother's voice from the Granite State.
DR. ORDWAY: Dear Sir—Since we have kept your medicine for sale, we have used seven bottles of your Blood Purifier in our family, and from the effects produced we believe it to be an invaluable medicine.
I wish to inform you particularly what it has done to our little boy (who is now six years of age), and has been a feeble child from his infancy; a large amount of being afflicted with scarlet fever, producing ... and consequently, at times, ... One year ago last summer and fall he was severely afflicted with Canker in his mouth and throat so much so that it was distressing to witness the intense agony of the little sufferer while trying to eat the softest food. I did not know what course to pursue with him, but I finally concluded to make a trial of your Blood Purifier, and commenced giving it to him about the 1st of December. I am happy to say that he taking one bottle his mouth was free from canker, and his health was improved every way, and after taking three bottles in succession, he (for the first time in his life) appeared to be in perfect health, and remained so until he was seized with the influenza in April, which left him with a severe cough, but we succeeded in relieving that in a few weeks. In July he took cold and his cough came on again worse than before. He was troubled with hoarseness and loss of appetite, and sank so that he was ... and all my friends were of opinion that he was going into a decline.
As soon as his cough was relieved, we commenced giving him the Purifier again to restore his health, and it so strengthened him he began to gain fast. And by the blessing of Almighty God, he is now and has been for two months past, the picture of health.
I can confidently recommend the Blood Purifier to all who are afflicted with humors in any form.
We have also made use of the Purifier as a restorative after being reduced by fever, and believe it to be the very best of Medicines in all such cases, for regulating the secretions, and removing all morbid matter from the system and restoring health and vigor.

WEDNESDAY, MAY 31, 1854.

Whig State Convention.

The Whigs of the several cities, towns, and organized plantations in the State of Maine, are requested to send delegates to meet in Convention at PORTLAND, on TUESDAY, the 20th of June next, at 10 o'clock A. M., for the purpose of nominating a Candidate for Governor, and the transaction of such other business as may be presented.

The basis of representation will be as follows, viz:—Every city, town, and organized plantation, will be entitled to one delegate; every city, town, and organized plantation, having 1000 inhabitants, will respectively be entitled to two delegates; those having fifteen hundred inhabitants, to three delegates; those having two thousand inhabitants to four delegates; those having twenty-five hundred inhabitants, to five delegates; and those having more twenty-five hundred inhabitants an additional delegate for every additional one thousand inhabitants—the census of 1850 to be taken as the basis of representation.

By order of the Whig State Committee.

May 22, 1854.

[We publish the above as received. The 29th of June, however, falls on Thursday, not Tuesday. We suppose the 29th to be the day.]

The Fishery Treaty—Eastern Interests.

The New York Herald states that the treaty agreed upon by the Secretary of State and the British Minister, not only includes the adjustment of the fishery question, but also provides for reciprocity of trade with the North American Colonies. The principle is extended to all the natural productions of each country, with the exception of coal, tobacco and sugar, and it is thought the first named article will be included. Great Britain has acquiesced in the terms, but with the important proviso that the Colonies also agree to them.

It is said that the lower Provinces are unwilling to agree to any treaty which does not include an American registry of Provincial built vessels, and yield to them a free participation in our coasting trade. These concessions are somewhat important, it must be admitted, and such as the State of Maine will not be likely to consider very judicious. These alone would be worth more to the Provinces than the whole fisheries to us. Let our administration insist upon the *right* of our fishermen, under the arrangement of 1818, to fish anywhere on the Provincial coasts, three miles from the land, without regard to headlands, and with the privilege of running in during bad weather—and we have all the substantial advantages, of the cod fishery, at least. It would secure our right to the Chaleur and other bay fisheries, now denied to us by the unjust construction of the treaty, insisted upon by the Provincial authorities, and latterly enforced by the home government.

But notwithstanding the importance to us of continued protection to our ship building interests, and the exclusive employment of the American coasting trade by American vessels, there are many indications that President Pierce's administration is prepared to yield them both, in the settlement of the fishery question. They are principally important to New England—and neither New England interests nor Northern interests generally are apparently a matter of so much consequence in the eyes of a New England President and his administration, as those of the South. In the reciprocity arrangement above stated, all the natural products of the Northern States are to be thrown open to the free competition of the Provinces—lumber, fish, wheat, potatoes, cattle, horses, &c., &c.—while the manufactured articles which the Northern States, and New England particularly, can fabricate, and desire to sell, are left out of the arrangement. A true and just reciprocity would be an unrestricted exchange of all articles, either produced or manufactured by the countries respectively, and which are usually the subjects of commerce—but without reference to our shipbuilding interests or the coasting trade—for which these Provinces can offer us no equivalent. The people of Maine will not be satisfied with any reciprocity arrangement which yields these points.

Pursuant to a previous notice the Musical Profession, Members of Choirs, and others, met at the Lecture Room of the Hammond street Church, on Monday Evening, May 29.

Mr. Joseph Forbes was chosen Chairman of the meeting.

It was Voted, That a Miscellaneous Concert be given at the City Hall, ere long, designed to be complimentary to Mrs. SARAH M. [illegible], who has for so many years been identified with the musical interests of this city.

Messrs. E. F. Duren, J. W. Tufts, A. P. Guild, H. R. Streeter, and E. McKenney, together with Mrs. Forbes, Mrs. Tufts, and Miss Kendrick, were appointed a Committee to make all the necessary arrangements for the occasion.

They would invite the Members of the Profession, Choirs, and Amateurs to meet for rehearsal, on next Thursday evening, in the Hammond-street Vestry, at half-past 7 o'clock; bringing with them copies of the Carmina, Handel and Hayden Society's Collection of Choruses, Dyer Collection, and Melodia Sacra.

ATTEMPTED SUICIDE. Mrs. Clark, wife of Bradford Clark, who was married at Pat agumpus (near Mattawamkeag) some time since, came to the Mansion House in this city last week, and at 3 o'clock yesterday morning, swallowed half an ounce of opium. It was not expected last evening that she would recover. The cause of the rash is supposed to have been domestic difficulties.

The people of California are not likely to starve this year—the growing wheat crop being estimated from fifteen to twenty millions of bushels—equal to at least forty bushels per inhabitant. Potatoes are now less than half the going price at New York—and it takes but three to make a bushel. Salmon are selling at six bits apiece. Great bounty — but a good ways off.

DISASTER.—The drop bridge at the Hoboken ferry, fell on Sunday last, while covered with hundreds of people. Some are believed to be drowned, although no bodies had been found.

Riot. A riot occurred at New York, on Sunday, between a party of foreigners and the friends of a street preacher—and another at Brooklyn from the same cause.

PHOTOGRAPHIC VIEWS OF EGYPT, PAST AND PRESENT: by Joseph P. Thompson. Boston: Jewett & Co.; 1854.

We have here in a volume of 358 pages, the author's impressions during a three months' journey through the land of the Nile—among the Pyramids and catacombs and crocodiles and ancient ruins and *dubious* Egyptians. The sketches are lifelike, and variously illustrated by good engravings, copied from the works of Bartlett and Lane. From a cursory examination, we judge that a great fund of information and amusement may be gathered from this volume.

BAKER'S SCHOOL MUSIC BOOK. A Collection of Songs, Chants and Hymns, for juvenile Classes, Common Schools, and Seminaries—containing a complete system of elementary instruction in the principles of musical notation. By B. F. Baker. Boston, John P. Jewett & Co., 1854.

The elementary portion of this work is full, clear and concise, with easy progressive exercises, and the music is of a character to lead pupils to form a correct taste and a pure style. It is a book calculated to aid in the development of our native musical talent. To be found at Duren's.

THE COMPLETE POETICAL WORKS OF SAMUEL ROGERS, with a Biographical Sketch, and Notes. Edited by Epes Sargent. Boston, Phillips, Sampson & Co., 1854.

This is a handsome and at the same time a cheap edition of the works of this venerable poet, which for purity of sentiment, simplicity of style, fine taste, and high moral tone, have never been exceeded. His versification is easy, smooth, and unaffected, and far more pleasing to the true poetic reader, than the complicated stanzas of some modern poets, who aim at celebrity by adopting great eccentricities of style. "The Pleasures of Memory," the earliest of his poems, is one of the most beautiful and touching in the English language. His "Journey through Italy," a nobler, but still simple poem, is the last and crowning effort of his literary career. Rogers is now in his ninety-first year, and fairly entitled to the appellation of the Nestor of the Poets.

The volume may be found at Duren's.

An Important Move. Mr. Olds has introduced into the House a substitute for the Postage bill, not long since reported by him from the Post Office Committee. Its most important feature proposes to abolish the franking privilege, making the postage on all letters now going free in the mails chargeable to the Treasury of the United States. It further provides, that the postage on letters sent under 3000 miles shall continue to be three cents, prepaid, as at present: the Committee's bill it will be recollected, provides that it shall be five cents.—Washington Star.

Matt F. Ward returned to Louisville on the steamboat R. J. Ward, on the 22d. He left the city again the next day, in consequence, probably, of the threatening manner in which his arrival in town was noticed by the city papers of that morning, and a call for a public meeting on the subject, which was proposed during the day.

The Tubular Bridge. The construction of the great tubular iron bridge across the St. Lawrence, opposite Montreal, has commenced. Some 1500 men will, it is said, be employed on the bridge the coming summer.

A Slave Carried Back. The brig Crawford, of Richmond, Capt. Small, left St. John's River, Florida, on the 13th inst., and on the 16th inst., off Hatteras, with a fair wind, discovered a negro on board, who had secreted himself in the hold. Capt. Small immediately tacked ship, and off Cape Romain fell in with a Georgetown pilot boat, to whom he delivered him up.

Important Insurance Regulation. The Board of New York Underwriters have resolved to grant no policy of insurance on any vessel in the foreign trade or on its freight, except such vessel is guaranteed not to carry grain in bulk.

A half-intoxicated private of the 16th Lancers, named Banks, went to a menagerie at Carlow, and stupidly thrust his hand into the lion's cage. Of course the beast took instant possession. With wonderful pluck and presence of mind Banks did not move his hand. The keeper came, threw a bullock's head into the cage, and the lion left the hand for the head.

Who was Richard, just before he was himself again."

The editor of the Rockland Gazette is striving to make his town famous in the way of big cod-fish. In the way of cod-fish aristocracy, Captain Bickford of the Bangor Fish Market, is willing to yield the palm to Rockland; but when one talks of fish themselves, fish as are fish, it will not do to put the sixty-two and a half pounder, about which a boast is made, against the fish recently disposed of by the Captain to the Abram of the Bangor House, for that fish measured six feet and eight inches in length, and weighed ninety-three pounds avoirdupois! He was a graceful fish, well fed and aldermanic! The Captain wields the trident of the sea, and has his orders expressed to secure for Bangor the richest and rarest of the finny tribe to furnish the most exquisite titbits to the palates of the solid men of Bangor. In Rockland, it may be said that:

> "Life is a shad—oh—how it flies!"

But the talk at Bickford's does not bring life down to that low figure!

The Aroostook boom has been carried away by the freshet, and a large portion of the lumber either carried to sea or scattered over the country, which is overflowed. The dams at Union Point are also carried away.

The eel was not seen at Boston, except for a moment or two, at the time of greatest obscuration. In New York, Washington, and further west, however, the weather was clear.

The Case of the Slave Burns.

For some reason not known by us, we were disappointed of a Boston despatch on Monday evening. We now give some items of interest from the Boston papers, in relation to the fugitive slave case. The Gordian knot of the difficulty, it seems, was attempted to be cut by the purchase of the negro. Suttle had agreed to take $1200 for him, if paid by 12 o'clock Saturday night, and himself relieved of costs, and prosecutions. The money was subscribed by prominent merchants but the other conditions could not be complied with.

The Boston Journal of Monday evening says

There has been no repetition of the scenes of violence enacted on Friday evening, at the Court House. The firmness of the authorities together with the presence of a large body of military, has sufficed to keep the riotously disposed in order, and although hosts of people have been at all times in the vicinity of Court square, there has been no outbreak.

A negro named Nelson Hopewell has been arrested on charge of being the murderer of Batchelder—who, it seems, was stabbed, not shot.

THE SUBJECT IN THE PULPIT. Nearly all the clergymen in the city preached sermons on the present excitement, the majority denouncing slavery, and vindicating the execution of the laws. Sermons by Thomas Starr King, Kirk, Lothrop, Peabody, Robbins, Blagden, and Eastburn, were much admired.

Theodore Parker commenced his sermon by reading from a scrap of paper, the simple request of Anthony Burns for the prayers of his brethren in Christ. This had been handed him, he said, by the Rev. Mr. Grimes and Dea. Coffin Pitts, of the church of colored Christians in this city. Mr Parker remarked that this petition in the old Congregational form, was asking God to do their duty. *He* did not think that God would forget Anthony Burns in his affliction, and he *should not present it.* If God Almighty should perform a special miracle to set Anthony Burns free he did not suppose it would satisfy him or them—and so he would *not do it*, he should not ask it.

But another petition headed "Boston Slave Pen"—requesting them to do *their* duty as Christian Brothers, and *that*, said he, (taking his spectacles) "Let us respond to."

Then followed a solemn, impressive prayer. Mr. Parker then commenced his discourse, which, after detailing the events of the week, concluded as follows:

"I know Judge Loring. I have been acquainted with him some years. He is respectable, even in the Boston sense, and in a much higher sense. He is a most estimable man in every relation of life—a good neighbor, an excellent husband, a kind father. I never heard a mean word from him, and up to last week I should as soon have expected that venerable man (pointing to a revolutionary soldier who sat in front of the speaker's desk) who sits before you, to have kidnapped Robert Morris or any of us, as that he should issue a warrant for Anthony Burns.

But he has done it—he has sown the wind, and now, in the presence of thousands of our fellow citizens, assembled in the house of prayer, *I charge you, Edward Greeley Loring, Judge of Probate for the County of Suffolk and the Commonwealth of Massachusetts, with the tumult that disturbs our city, with the death of the man who was murdered, and with the danger of the men now in peril of their lives*".

John C. Cluer was arrested in Court street, near the Court House, about three o'clock Saturday afternoon, by Constable Spear, on a warrant from the Police Court, charging him, with ten others, with the murder of James Batchelder, and was committed to jail to await an examination. John Morrison was also arrested and committed on the same charge. These, we believe, make eleven of the rioters who are charged with the murder.

At about noon on Monday, considerable cheering was heard in Court square, occasioned by the arrival of a band of men, numbering perhaps 200, bearing a banner on which was inscribed "Worcester Freedom Club" They marched up Court street, into Court square, and around the Court House, and from thence toward the west part of the city. A few moments after they left the square, all was as quiet as previous to their appearance.

We understand that the Bay State Club have tendered the United States Marshal 1500 men, to enforce the law.

A meeting composed principally of individuals from the country, is now (1-2 o'clock, P. M.,) in session in Meonaon Hall, over which Dr. —— Mitchell, of Worcester, is presiding.

Wm. Lloyd Garrison and others, have made inflammatory addresses. Mr. Hanscom stated that a writ of replevin, or habeas corpus, to take the fugitive Burns out of the custody of the United States Marshal, had been placed in the hands of one of the Coroners of Suffolk, who would serve it, provided he could obtain sufficient force to aid him.

THE HEARING IN THE CASE OF BURNS, was commenced on Monday forenoon, and was probably not concluded until yesterday.

The principal witness was Mr. Brent. He had known Burns at Richmond, Va., for four years, as the slave of Mr. Suttle, and had hired himself frequently during that time.

In regard to the arrest he said, in going to the room on the night of his arrest in this city, in reply to a question by his master, "Anthony, what are you doing here?" he said, "that an accident had happened to him: that he was working at Rockland on board a vessel; that he got tired, went to sleep, and was brought off on board a vessel." When Suttle entered the room the first said was by Burns "How do you do Master Charles?" and after the conversation related above his master asked him did I ever whip you? Burns said no. Did I ever hire you any where where you didn't want to go? No sir. Did you ever ask for money and I did not give it you? Reply, no sir. When you was sick didn't I take the bed out of my own house and give it to you and nurse you? The reply was, yes sir. There was something said about going back; he was asked if he was willing to go back, and he said yes.

It appears that Brent came on with Suttle, to aid in the reclamation of Burns.

During the trial, Burns was strongly guarded. No attempt was made to rescue him.

A passenger by the Daniel Webster, states that Burns had been previously removed from the Court House by stratagem, and taken to the Navy Yard for safe keeping, on board one of the United States vessels. But we see nothing of this in the papers.

HOMICIDE MURDER. [The Frankfort (Ky.) Yeoman relates the particulars of a murderous outrage which has few parallels in enormity:

We hear various accounts of the horrible affair in Boone county, near Lawrenceburg, in Anderson County, of Mrs. McBrayer, wife of James McBrayer, Esq., and daughter of Thos. Bland, of this place. It seems, from a summary of the reports, that some time between nine and eleven o'clock, after Mr. and Mrs. McBrayer had retired to rest, a man entered their room with an axe, and approaching the bed, passed his hand over her face, in order to be sure of the right one, which awoke her. Being satisfied that it was her, he commenced cutting with his axe, first striking her breast and arms in many places; he then, with several strokes, severed one of her legs entirely off. Mr. McBrayer, being awakened by the noise, reached out his hand to protect his wife, and received a blow cutting his hand in two. The incarnate fiend, thinking he had killed her, commenced striking about at random over the bed, with the fiendish intention to kill their youngest child, who was in bed with them, but not finding it, he went to the lounge in the room where slept their other child, and aimed a blow at its head, but only cut the back of its neck. He then went out, leaving the bloody axe at the door. Mrs. McBrayer had life enough left to tell who, as well as she could see, in the darkness, had committed the horrible deed. From her statement, her step-son has been arrested and put in jail to await his trial.

THE RICHEST MAN IN VIRGINIA. Samuel Hairston, of Pittsylvania, is the gentleman.—When I was in his section, a year or two ago, he was the owner of between 1,600 and 1,700 slaves, in his own right, having but a little while before taken a census. He also has a prospective right to about 1,000 slaves more, which are now owned by his mother-in-law, Mrs. R. Hairston, he having married her only child. He now has the management of them, which makes the number of his slaves reach near three thousand. They increase at the rate of near one hundred every year. He has to purchase a large plantation every year to settle them on. A large number of his plantations are in Henry and Patrick counties, Virginia.—He has large estates in North Carolina. His landed property in Stokes alone is assessed at $500,000. His wealth is differently estimated from $3,000,000 to $5,000,000; and I should think it was nearer the latter. You think he has a hard lot, but I assure you Mr. Hairston manages all his matters as easy as most persons would an estate of $10,000. He has overseers who are compelled to give him a written statement of what has been made and spent on each plantation, and his negroes are all clothed and fed from his own domestic manufacture; and raising his own tobacco crop, which is immensely large, as so much clear gain every year, beside his increase in negroes, which is a fortune in itself.—Cor. Richmond Whig.

Holloway's Pills.—Extraordinary Cure of Palpitation of the Heart.—Professor Holloway, 176 Atlantic street, New York, had the pleasure of receiving from Mr. John Baker, of State street, Boston, a letter, dated March 17th, 1854, which is subjoined, verbatim. "Dear Doctor: Your Pills are entirely good. A few years ago I was under the treatment of Dr. ——, of this city. I suffered with palpitation of the heart to so great an extent that I was frequently obliged to abstain from any kind of exercise, mental or bodily, for weeks together. A short time since I was seized with violent sickness and spitting of blood; I, of course, went to my old friend, but finding him out I went into the store of Redding & Co., of this city, for a newspaper, and accidently saw several boxes of your Pills there; I purchased one, took a few doses, and the result was very favorable. By persevering with them I am entirely cured, and have to thank you for now enjoying good health. J. BAKER.

DIED.

THE FUGITIVE SLAVE CASE.

Boston, May 30.

The fugitive slave case creates much less ex- citement to day than yesterday. D. M. Ellis made an able argument for the defence, and then introduced evidence which it directed a fa- tal error in the complaint as regards dates — The complaint affirms that Burns ran away from Col. Suttle, his owner, on the 24th of March. Wm. Jones, colored, testified that he employed Burns five days, commencing the 1st of March, in washing windows and other jobs at the Mattapan Iron Works in South Boston. George H Drew, book-keeper at the Matta- pan Iron Works, was next called. He testified that Jones, the previous witness, was employed there several days, commencing with the 1st of March, and had two or three men with him. The prisoner was one of them. Witness recog- nized him now, and felt sure of his identity. Witness was closely cross-examined but with- out shaking his direct testimony.

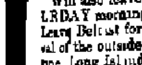

Washington, May 30.

In the Senate this morning, Mr. Adams of- fered a resolution directing an inquiry by the Committee on Pensions as to the condition of the wife and children of Mr Batchelder, who lost his life in Boston while aiding in the exe- cution of the United States laws. And on the table at the suggestion of Mr. Sumner.

LAND OFFICE,

Bangor, May 19, 1854.

SEALED PROPOSALS will be received at this office till the twentieth day of June next for furnishing materials, and constructing the mason- ry, for the Mattawamkeag Bridge.

Persons proposing to build will state the price demanded per cubic yard

The contractor will be required to remove the old piers and abutments, and to furnish materials and construct necessary bands to sustain the bridge in a proper manner while taking down the old and building the new piers and abutments, and he will also be required to place (in a suitable manner) the bridge upon the new piers and abutments as soon as they shall have been completed.

Separate proposals will also be received for furn- ishing materials for, and constructing the bank walls, and the abutments for small bridge. This work to be of a good kind of culvert masonry

More particular information may be obtained by an examination of the plans, &c., in the Land Of- fice. GEORGE C. GETCHELL,

North Yarmouth Academy.

THE *Summer Term* of this institution will com- mence on THURSDAY, June 15th, under the instruction of Mr. A. B. WIGGIN, and will con- tinue eleven weeks

The Trustees have the pleasure to announce that they have engaged the services of Mr. Wiggin as the permanent Principal of the Academy. They rely with great confidence upon his established rep- utation as a sound scholar and experienced teach- er, derived from his previous highly successful en- gagements during several years as the Principal of the New Castle Academy, and for the last four years as the Principal of the High School of the City of Bath.

The course of instruction will be designed, as heretofore, to promote the best general cultivation in English branches, modern languages, and clas- sics.

A competent musical teacher is engaged, who will give instruction to young ladies on the piano at $6 per quarter.

Board can be obtained in Commons connected with the Academy, and *including furnished rooms,* for $1,75 per week, or in private families at prices from $2,25 to $2,50 per week.

KENNEDY'S

MEDICAL DISCOVERY

The Greatest of the Age!

MR KENNEDY, of Roxbury has discovered in one of our common pasture weeds a remedy that cures *EVERY KIND OF HUMOR*, from the worst Scrofula down to a common Pimple. He has tried it in over eleven hundred cases, and never failed except in two He has now in his possession over two hundred certificates of its value, all within twenty miles of Boston

Two Bottles are warranted to cure a nursing sore mouth

One to three bottles will cure the worst kind of pimples on the face

Two to three bottles will clear the system of biles

Two bottles are warranted to cure the worst canker in the mouth and stomach

Three to five bottles are warranted to cure the worst case of erysipelas

One to two bottles are warranted to cure all humors in the eyes

Two bottles are warranted to cure running in the ears and blotches in the hair

Four to six bottles are warranted to cure corrupt and running ulcers

One bottle will cure scaly eruptions of the skin

Two to three bottles are warranted to cure the worst case of ringworm

Two to three bottles are warranted to cure the most desperate cases of rheumatism

Three to six bottles are warranted to cure salt rheum.

Five to eight bottles will cure the very worst case of Scrofula.

A benefit is always experienced from the first bottle and a perfect cure warranted when the above quantity is taken

Nothing looks so improbable to those who have in vain tried all the wonderful medicines of the day as that a common weed growing upon the pastures, and along old stone walls, should cure every humor in the system, yet it is now a fixed fact.—If you have a humor it has to start There are no ifs nor ands about it, suiting some cases but not yours He has peddled over a thousand bottles of it in the vicinity of Boston and knows the effect of it in every case It has already done some of the great cures ever done in Massachusetts He gave it to children a year old, to old people of sixty, and to poor puny looking children whose flesh was soft and flabby, restored to a perfect state of health by one bottle

To those who are subject to a sick headache one bottle will always cure it It gives great relief in catarrh and dizziness Some who have taken it have been costive for years, and have been regulated by it. Where the body is sound it works quite easy, but where there is any derangement of the functions of nature it will cause very singular feelings but you must not be alarmed—they always disappear in from four days to a week There is never a bad result from it—on the contrary, when that feeling is gone you will feel yourself like a new person I heard some of the most extravagant encomiums of it that ever man listened to

No change of diet ever necessary—eat the best you can get, and enough of it

WILSOR'S COMPOUND OF

PURE COD LIVER OIL AND LIME.

THIS valuable medicine which has received the sanction of the medical faculty by whom it is regularly prescribed and which has been tested successfully by thousands of invalids is one of the most remarkable preparations ever offered to the public for the cure of

CONSUMPTION, SCROFULA, COUGHS, COLDS, ASTHMA, BRONCHITES, SPITTING OF BLOOD, AND ALL COMPLAINTS OF THE LUNGS.

Pure Cod Liver Oil has long been acknowledged to be the most efficacious article for the cure of Consumption and kindred diseases, et discovered while the chemical properties of the PHOSPHATE OF LIME are as well known to many, it being peculiarly healing in cases where ulcera ion has taken place on the lungs, this article has been found by the most careful tests, to supply the very ingredients necessary for the formation of cells and the complete [illegible] of the delicate part of the human system

This preparation of the pure Cod Liver Oil and Lime robs the oil of its very nauseating taste which renders it so repulsive particularly to invalids.—The thorough incorporation of the Phosphate of Lime with the Oil has only been accomplished by the adoption of the most perfect rules of chemistry and a medicine has thereby been produced which is of inestimable value in a climate like our own

A long array of certificates might be given here to prove the efficacious character of this medicine but it is not deemed necessary The fact that from the very first introduction of the Cod Liver Oil and Lime before the public, it has been gradually adopted by the medical faculty, is sufficient proof of its unquestionable value. The following certificate from Dr John C Warren of Boston, was given 17 years since, but will last forever

Boston, Jan 8 1853

Having had occasion to observe that some persons afflicted with Hernia have suffered much from the want of a skillful workman in accommodating Trusses to the peculiarities of their cases I have taken pains to inform myself of the competency of Mr J F Foster to supply the deficiency occasioned by the death of Mr Beath—After some months of observation of his work I am well satisfied that Mr Foster is well acquainted with the means of applying these instruments and ingenious in accommodating them to the variety of cases which occur I feel confident in recommending to my medical brethren and the public as a person well fitted to supply their wants in regard to these important articles

JOHN C WARREN, M D

The undersigned take great pleasure in recommending to the notice of the public [illegible] afflicted with Hernia Mr [illegible] well known for many years [illegible] and fitting of Trusses We have employed him (some of us for twenty years) and therefore speak from personal knowledge of his abilities His early advantages and long experience in the business and the large number of individuals to whom he has afforded relief in a variety of cases render him, in our opinion, equal if not superior to any individual engaged in the article Has Father Dan a demand Foster of Charlestown was master of the Poor-house in that town for upwards of twenty five years during which period Mr Foster availed himself of the opportunity and made application of Trusses to a great variety of cases with great success most of which were of a very difficult and distressing character

MEDICATED INHALATION.

A NEW METHOD.

A MOST WONDERFUL DISCOVERY has recently been made by Dr CURTIS for the cure of Asthma, Consumption Bronchitis Coughs, Colds and all Lung Complaints, by Medicated Inhalation Dr CURTIS'S HYGEANA or INHALING HYGEAN VAPOR and CHERRY SYRUP has accomplished the most wonderful cures of Asthma and Consumption in the city of New York and vicinity for a few months past, ever known to man It is producing an impression on Diseases of the Lungs never before witnessed by the medical profession [See certificates in hands of Agents]

The Inhaler is worn on the breast, under the linen without the least inconvenience, the heat of the body being sufficient to evaporate the fluid, supplying the lungs constantly with a healing and agreeable vapor passing into all the air cells and passages of the lungs, that cannot possibly be reached by any other medicine Here is a case of

ASTHMA CURED.

BROOKLYN, N Y, Dec 20 1853

For about eight years I have been severely afflicted with the Asthma for the last two years I have suffered beyond all my powers of description months at a time I have not been able to sleep in a bed, getting what rest I could sitting in my chair, My difficulty of breathing and my sufferings, were so great at times that for hours together my friends expected each hour would be my last During the past six years I have had the aid and attendance of some of the most celebrated physicians but have received no permanent benefit, and but little relief I at length had the good fortune to procure Dr Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup At the time I first tried it, I was suffering under one of my most violent attacks and was in great distress almost suffocating for want of breath In less than ten minutes from the time I applied the Inhaler to my stomach and took a teaspoonful of the Cherry Syrup I was relieved in a great measure from the difficulty of breathing and had a comfortable night I have since continued it with the greatest possible benefit and am now comparatively well. God only knows the amount of suffering this medicine has relieved me from My advice to the suffering is—try it

CONSUMPTION CURED.

New York Dec 27th 1853

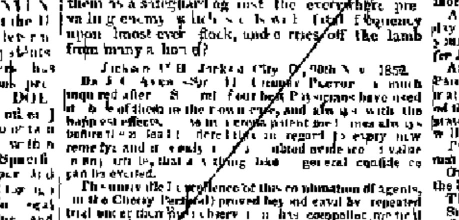

I came to New York in the ship Telegraph my native place is St John New Brunswick, when I reached this city my health was very poor had a bad cough raised a good deal of matter which was frequently raised with blood had pains in my side and was very weak and emaciated My friends and physician pronounced my case Consumption and beyond the reach of medicine I accidentally heard of Dr Curtis's Hygeana or Inhaling Hygean Vapor and Cherry Syrup and obtained a package which I verily believe was the means of saving my life Soon after wearing the Inhaler I found it relieved the pressure on my lungs and after a while the disease made its appearance upon the surface under the Inhaler I took the Cherry Syrup as directed and continued to do so, my cough gradually growing better until it entirely left me and I now consider myself cured I still wear the Inhaler as the use of it is rather pleasant and believing it strengthening and purifying to the lungs I feel unwilling at present to dispense with it

CHERRY PECTORAL,

For the rapid Cure of

COUGHS, COLDS, HOARSENESS, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, AND CONSUMPTION.

WE invite the attention of the public to the Certificates appended below, and bespeak for them that candid consideration which their honest frankness deserves

Men in such stations as they are who voluntarily bear witness to the efficacy and value of CHERRY PECTORAL do not wantonly trifle with or distort facts nor overstate their convictions Judge then, whether this is not the medicine to trust which must have relief for the throat and lungs and the need too, which every family ought not to have it by them as a safeguard against the everywhere prevailing enemy which steals with fatal frequency upon almost every flock, and carries off the lamb from many a home?

DR. MORSE'S Invigorating Cordial,

A

Phenomenon in Medicine.

Health Restored & Life Lightened by Dr. Morse's Invigorating Elixir, or Cordial.

The scientific Medical science has been ransacking the vegetable and mineral kingdom in search of something that should restore the lost energies of the nervous and muscular system with an [illegible] but [illegible] *That something has been found.* It is a vegetable production, brought from the stony deserts of Arabia the Stony, by the celebrated Professor M. Morse well known as a distinguished member of the leading scientific societies of the Old world and equally distinguished as a physician a chemist and a traveller. The juices of this herb concentrated and combined with other vegetable medicinal extracts are now producing results heretofore unheard of in this or any other country. At first the properties attributed to Prof MORSE'S INVIGORATING ELIXIR OR CORDIAL, were deemed fabulous. The public often deceived could not believe the simple and sublime truths announced by the discoverer But facts undeniable facts attested by witnesses of the highest class and character are now triumphing over all doubts. Incredulity is overthrown by a mass of testimony which is perfectly irresistible

The ELIXER remedies, in all cases the deplorable evils arising from a misuse or abuse of the various organs which make up the wonderful machine called man, It restores to full vigor every delicate function connected with that mysterious compound agency of matter and mind necessary to the *reproduction of human life.* To persons of feeble muscular frame, or deficient in vital power it is recommended as the only means of communicating that energy which is necessary to the proper enjoyment of the natural appetites as well as the higher mental attributes. Its beneficial effects are not confined to either sex or to any age. The feeble girl the ailing wife the listless, enervated youth, the over worn man of business the victim of nervous depression, the individual suffering from general debility or from the weakness of a single organ will all find immediate and permanent relief from the use of this incomparable renovator. To those who have a predisposition to paralysis it will prove a complete and unfailing safeguard against that terrible malady. There are many perhaps who have so often trifled with their constitution, that they think themselves beyond the reach of medicine. Let not even these despair. The Elixer deals with disease *as it exists*, without reference to causes, and will not only remove the disorder itself but

These are some of the sad and melancholy effects of the early habits of youth viz weakness of the back and limbs pains in the head, dimness of sight, loss of muscular power palpitation of the heart dyspepsia nervous irritability, derangement of the digestive functions, general debility symptoms of consumption &c.

Mentally, the fearful effects on the mind are much to be dreaded Loss of memory confusion of ideas depression of spirits, evil forbodings aversion to society, self distrust love of solitude timidity &c are some of the evils produced All thus afflicted

BEFORE CONTEMPLATING MARRIAGE,

should reflect that a sound mind and body are the most necessary requisites to promote connubial happiness, indeed, without these the journey through life becomes a weary pilgrimage, the prospect hourly darkens the view the mind becomes shadowed with despair and filled with the melancholy reflection that the happiness of another becomes blighted with your own

are often misled with respect to the causes and sources of diseases in their sons and wards. How often do they ascribe to other causes of wasting of the frame idiocy, madness, palpitation of the heart indigestion, derangement of the nervous system, cough and symptoms indicating consumption, when the truth is that they have been indulging in a pernicious, though alluring practice, destructive both to mind and body

CAUTION.

Dr Morse's Invigorating Cordial has been counterfeited by some unprincipled persons.

AYER'S PILLS,

A NEW and singularly successful remedy for the cure of all Bilious diseases—Costiveness, Indigestion, Jaundice Dropsy, Rheumatism, Fevers, Gout, Humors Nervousness Irritability, Inflammations, Headache Pains in the Breast, Side, Back and Limbs Female complaints &c. Indeed, very few are the diseases in which a Purgative medicine is not more or less required, and much sickness and suffering might be prevented, if a harmless but effectual Cathartic were more freely used. No person can feel well while a costive habit of body prevails, besides it soon generates serious and often fatal diseases which might have been avoided by the timely and judicious use of a good purgative. This is alike true of Colds, Feverish symptoms, and Bilious derangements. They all tend to become or produce the deep seated and formidable distempers which load the hearses all over the land. Hence a reliable family physic is of the first importance to the public health, and this Pill has been perfected with consummate skill to meet that demand. An extensive trial of its virtues by Physicians, Professors and Patients has shown results surpassing anything hitherto known of any medicine. Cures have been effected beyond belief were they not substantiated by persons of such exalted position and character as to forbid the suspicion of untruth.

Among the eminent gentlemen who have testified and allowed to refer for the facts, are

PROF VALENTINE MOTT the distinguished Surgeon of New York City

DOCT A A HAYES, Practical Chemist of the Port of Boston and Geologist of the State of Massachusetts

IRA I MOORE M D an eminent Surgeon and Physician of the City of Lowell who has used them in his extensive practice

H C SOUTHWICK Esq one of the first merchants in New York City

C A DAVIS, M D, Sup't and Surgeon of the United States Marine Hospital at Chelsea, Mass

Did space permit we could give many hundred such names from all parts where the Pills have been used but evidence even more convincing than the certificates of these eminent public men is shown in their effect upon trial

These Pills the result of long investigation and study, are offered to the public as the best and most complete which the present state of medical science can afford. They are compounded not of the drugs themselves but of the medicinal virtues only of Vegetable remedies, extracted by chemical process in a state of purity and combined together in such a manner as to insure the best results. This system of composition for medicines has been found in the Cherry Pectoral and Pills both, to produce a more efficient remedy than had hitherto been obtained by any process. The reason is perfectly obvious. While by the old mode of composition every medicine is burdened with more or less of acrimonious and injurious qualities, by this each individual virtue only that is desired for the curative effect is present. All the inert and obnoxious qualities of each substance employed are left behind, the curative virtues only being retained. Hence it is self-evident the effects should prove as they have proved more purely remedial, and the Pills a surer more powerful antidote to disease than any other medicine known to the world.

As it is frequently expedient that my medicine should be taken under the counsel of an attending Physician, and as he could not properly judge of a remedy without knowing its composition, I have supplied the accurate Formulae by which both my Pectoral and Pills are made to the whole body of Practitioners in the United States and British American Provinces. If however there should be any one who has not received them they will be promptly forwarded by mail to his address.

Of all the Patent Medicines that are offered, how few would be taken if their composition was known! Their life consists in their mystery. I have no mysteries.

The composition of my preparations is laid open to all men, and all who are competent to judge on the subject freely acknowledge their convictions of their intrinsic merits. The Cherry Pectoral was pronounced by scientific men to be a wonderful medicine before its effects were known. Many eminent Physicians have declared the same thing of my Pills, and even more confidently, and are willing to certify that their anticipations were more than realized by their effects upon trial.

They operate by their powerful influence on the internal viscera to purify the blood and stimulate it into healthy action—remove the obstructions of the stomach, bowels, liver and other organs of the body, restoring their irregular action to health, and by correcting, wherever they exist, such derangements as are the first origin of disease.

Being sugar wrapped they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

For minute directions see the wrapper on the Box.
